## **III INTERNATIONAL MEETING ON MESOZOIC FISHES**

### **Systematics, Paleoenvironments and Biodiversity**

**Serpiano (TI-CH) - 26-31 August 2001**

Dear Colleagues, the new century is near and with it our first mesofishes meeting of the third millennium. More than 70 researchers have sent their preliminary registrations, covering all the aspects of the Mesozoic Fishes. We are working hard to rise funds to help some people to come to Serpiano and to make your stay there as nice and interesting as possible.

Dates are fixed: as supposed in the first circular the meeting will start on August 26 with the registration and possibly a first event in the afternoon. Owing to the high number of oral communications announced, we will have 25 minutes speeches (comprising the discussion) in five days of scientific sessions. Short excursions are programmed for two half and one complete afternoons to visit the close-by localities in which excavations are still going on as well as the local museums with collections of fossil from the Besano-Monte San Giorgio area. The social dinner will be on the top of the Monte Generoso (1700 m.a.s.l.), but in a restaurant!, going up and down by 45 minutes of rack-railway and with the possibility of visiting before the dinner a cave bear excavation in a near cave with touristic access.

#### **Visa**

For those who need visa, remember that the meeting is in Switzerland, but we will go also in Italy for one excursion, so remember to ask for multiple entrances for both Italy (if you will arrive through Italy) and Switzerland as this latter country does not belong to E.U. If you need an official invitation, please ask as soon as possible.

#### **Accommodation**

All of us stay at the Hotel Serpiano, which is isolated near the top of the Monte San Giorgio. Remember that there is no other possibility of accommodation, so please send your final registration as soon as possible. Last minute booking could be impossible. We will keep the contacts with the Hotel, so as we receive your registration form, we book for you (one day deposit is asked). Very special price for our meeting is SFr 105.00/day for bed, breakfast and lunch in double room (single room add SFr 20.00). We hope that most of the dinners will be offered by local communities, museums or other sponsors.

#### **Travel**

To reach Serpiano you can use Milano-Malpensa or Lugano-Agno airports or, if you come by train, Lugano or Chiasso stations. From each one of these points buses can easily reach Mendrisio and then Serpiano. However, you will receive an offer from a Travel Agency from Lugano (.....) regarding flight+transport to Serpiano.

## **Clima**

At the end of August we have usually still warm summer weather. However, the Hotel Serpiano is at 650 m.a.s.l. and the evening could be fresh. Wind and showers may happen. Also, bring something heavier for the social dinner. Field shoes will need for visiting both the excavation sites and the bear cave on the Monte Generoso.

## **Abstracts**

Abstracts should be send, possibly by e.mail, to [andrea.tintori@unimi.it](mailto:andrea.tintori@unimi.it) as attached in MS-Word style. Each abstract must not exceed one page (interline 1, character Times New Roman 12). Only line-drawings will be accepted. Please specify if the abstract is for a speech or a poster.

**N.B.** REMEMBER THAT IN ITALY AND IN CANTON TICINO AUGUST IS A HOLIDAY MONTH, SO PLEASE RESPECT THE DEADLINE BECAUSE WE WILL HAVE EVERYTHING READY ONE MONTH BEFORE THE MEETING

## **Proceedings**

As for the previous two meetings, Vergal dr.F.Pfeil will publish the proceedings. Andrea Tintori and Gloria Arratia will be the editors. Please follow the guidelines for the previous volumes or ask for them directly to Friedric Pfeil [100417.1722@compuserve.com](mailto:100417.1722@compuserve.com). All author are kindly requested to compact as much as possible their papers as publishing costs are very high.
